

HDRI SKYDOMES II

HDRI SKY PANORAMA SET FOR ARCHITECTURAL LIGHTING

HDRI SKYDOMES II

Description

HDRI SKYDOMES is the second collection of 10 high quality 360° panorama photographs with high dynamic range for architectural lighting and visualization. All HDRI photographs were taken in Berlin-Tempelhof, a large area without disturbing trees or houses nearby. The images reflect different skies with different clouds and sun positions in order to achieve several moods in renderings. All images were manually stitched and cleaned with dust-removal and alignment.

All single hdri products and the bundle include preview scenes for 3ds max with vray and mental ray, CINEMA4D with vray as well as Luxology modo. These scenes will give you a quick start, so you spend less time to prepare light and render settings. Just import your architectural scene objects and start rendering a beautiful image.

Each HDRI Skydome includes between 6-8 background photographs for further variation.
